

## **SUPPORTING PROFESSIONAL CURRICULA IN PALESTINE UNIVERSITIES**

This document is a proposal for supporting

- the equipment of the **Industrial Automation** lab in Palestine Polytechnic University (PPU) in Hebron (page 3)
- the improvement of the **Industrial Automation** lab in Palestine Technical University – Kadoorie (PTU-K) in Tulkarm (page 10)
- the equipment of the **Electrical Energy Distribution** lab in Palestine Polytechnic University (PPU) in Hebron (page 18)
- the acquisition of complementary equipment in the **SCHNEIDER Training Center in Bethlehem** for the training of staff and students from Palestinian Universities (page 21)

The detail of the proposed equipment is given in the following sections. For each lab, priorities are indicated. The costs for equipment, mounting, installation, test and training are estimated.

The overview of the global subvention requested to SCHNEIDER Foundation to support the proposal, with indication of the global priorities is given in page 2. A recapitulative detailed description and quotation of the equipment and services is given in page 26.

A short description of the training sessions is given in page 24.
